

PT2020 PowerPlayTM Instruction Manual

GETTING STARTED

This unit needs a 9 volt PP3, 6LR61 / 9v, 6LF22 / 9v to operate (Supplied) insert the battery in the battery compartment.

The control box is dual channel, using the leads supplied connect to the items within the set or any other electro stimulation product using either the 2 or 4mm connectors on the lead sets. Pleasure-Tec supply a variety of adapters so that the control box can be used with almost all the different accessories available. The leads can be connected in any way to the accessory.

Use the On/Off button to turn the unit On/Off by pressing once.

Press the Program button to select from a number of programs, it is recommended to try the different programs with the intensity turned low. There are 11 set programs to choose and 3 programs to customise by the user.

Never connect the unit to the leads with the unit turned on

Press the Set button to increase or reduce the intensity and to change the program parameters from time, work, rest, and ramp up time.

The Set button also allows the user to synchronize channel A and channel B or to alternate between the 2 channels.

Use the + / - buttons to increase or decrease the intensity

EXAMPLE TO USE

Set Program to number 8 then press the set button to work mode
You will see the total program time is 3 minutes. Then set the intensity using the + / - buttons , you will see the MA (Milliamp) setting rise from 0 to 90 MA. This unit has a low battery indicator.

If a lead is disconnected or for some reason electrical current is no longer being carried by the lead you will see the Milliamp level fall to 0 and that channel will flash On / Off.

Time and practise will deliver amazing results from this unit.

TO SET UP A CUSTOMISED PROGRAM

Select the program PC 1,2,3 by pressing the program button. Press and hold the set button for 3 seconds until the Hz symbol flashes

LOCK BUTTON

A concealed lock button is included on your PT2020, this allows the unit to be locked to monitor compliance and use by a person between meetings / sessions etc (great for Slave training).

The unit records the time in use and average intensity, it also locks the customised programmes, stopping them from being altered.

To Lock The Unit

Select the pre-set or customised programme required.

If it is a customised program, make sure that the pulse width, frequency and time etc are set correctly

Remove the battery cover and use a thin rod leaving the battery in place (paper clip etc) and gently press on the lock button (Pin hole in the middle) until you hear a double beep .

- The unit is now locked and cannot be altered until unlocked.
- The lock symbol will appear on the LCD display
- To Unlock The Unit And Read The Results

Remove the battery cover as in step 1 above pres the concealed button until 1 beep is heard, the LCD display will show the average Milliamps used on each channel and the total hours and minutes that the unit has been in use . To reset simply press the Set button, this will clear the information.

WARRANTY

Pleasure-Tec provide a warranty to the original purchaser that this product will be free of defects in the material, components and workmanship for a period of 1 year from the date of purchase (invoice date).

If Pleasure-Tec is satisfied that the product is defective the purchaser may return the unit to Pleasure-Tec direct or to an authorised Pleasure-Tec distributor for a repair or replacement with a new unit. All returns must be authorised by Pleasure-Tec in advance.

The liability of Pleasure-Tec under this limited product warranty does not extend to misuse, abuse or tampering with the unit in any way or normal wear and tear. Evidence of tampering will null this warranty as there are no user serviceable parts inside.

PRECAUTIONS

Do not connect this unit or its leads to any mains powered source.

Not recommended for use with woman who are pregnant or people with heart pacemakers.

Not recommended for use in or around water or in the presence of inflammable gas.

RECOMMENDATIONS

Use the PT2020 on yourself before using on other people so you get to feel at what settings you start to experience feelings, this will also help you to get some experience using the PT2020 before you unleash it on others and help to make sure you don't frighten them off.

This item is sold as a novelty item and Pleasure-Tec hold no responsibility for harm or injury caused by the use of this product.
